*Dearest Lead,*

It is with a heavy heart to leave my position as a Customer Service Representative and a Sleep Coach with Adapt within iPloy OPC effective immediately. It is due to me having hard time falling asleep during daytime. Because of it, I would end up going to work feeling dizzy and it caused so much pain in my head. I currently have a fever and when my mother knew about it, she no longer wants me to go to work starting today and she just wanted me to apply to a dayshift job because she also knows about my daily struggle in falling asleep. I honestly and genuinely love my job as a Sleep Coach. If I just have no issues sleeping during daytime, for sure, I would prefer working in iPloy for many years until I get old.

I am happy that I have grown in the organization as of which leading the opportunity to gain more knowledge. I am thankful that I have been part of this Organization for 7 months. I do wish iPloy-OPC for its lifelong success.

Sincerely,

**REASYL P. ALMOALLAS**
