Hi TL Chris,

Good day to you!

I am so much thankful to be a part of this company for (3months)short period of time that I am not expecting for this hardest decision that I need to make.

Please approve my resignation immediately (December 20, 2022) due to my Son's health that now It needs to shift more fucos. I am checking the schedules, the time that I may see them as soon as they need me. I want to shift of a job that is WFH set up or the job that I more on having time with them. Traveling time Carcar to City really kills the time for me. And I do not want to be a problem in your team because also of my family problem.

I am thankful for the time spending with training, with GPC that really I miss a lot. TL Ellaine, TL Rick and all friends that is a big bunos to miss while working on this beloved Company.

I wish you luck and more successful moments your team Complaine and GPC.

Thank you for your very kind consideration for my request.

Best regards,

Ana E. Dioso
