Good day!

I am writing this letter for my resignation effective March 23, 2023.

It was not an easy decision however considering my current personal circumstances, it has become necessary for me to take a step back and address my personal front. I want to address the issues here at my end especially my health thus making me unable to continue any further. I am very thankful for the guidance, support, and opportunities that iPloy has provided me. I am equally thankful to my mentors, supervisors, and colleagues for providing unconditional support.

It is with regret that I ask you to accept this resignation letter. Thank you for your understanding. My best wishes are with everyone at the company.

Regards,

Nick Bryle Richie G. **Vilar**
