

1. Is a piece of paper required by Centers for Medicare and Medicaid Services to substantiate the necessity of an item of durable medical equipment furnished to a medicare beneficiary? (1 point)

- Certificate of Medical Need
- Certificate of Medical Necessity
- Certificate of Medical Claim
- Prescription

2. The patient's _____ contains the important information about the patient. (1 point)

- Records
- Prescription
- Face sheet
- Face book

3. A DME that would allow the patient to be transported from one place to another? (eg Wheel Chair to Bed). (1 point)

- Walker
- Patient Lift
- Stretcher
- Wheelchair

4. Our _____ department is geared towards implementing price transparency. (1 point)

- Intake
- Customer Service
- Orders
- Patient Pay

5. Can refer to items that are created for obese individuals to best suit their needs. (1 point)

- Durable Equipment
- Bariatric Equipment
- Heavy Duty Equipment
- Obese Equipment

6. What is the important element in the patient's prescription? (1 point)
- Signature of the doctor and the date for when it was created.
 - Signature of the doctor and NPI number
 - Signature of the doctor and the diagnosis
 - Date for when it was created and diagnosis
7. How many months will the patient need to rent the equipment? (1 point)
- 10 months
 - 12 months
 - 14 months
 - 13 months
8. The department in charge of creating and updating patient accounts. (1 point)
- Patient Pay Department
 - Documentation Department
 - Posting Department
 - Intake Department
9. They are in-charge for processing payments, verification, adjustments and re-submission of claims from medical insurance for the medical equipment coverage. (1 point)
- Posting Department
 - Medical Billing Department
 - Patient Pay Department
 - Documentation Department
10. The _____ department does make sure that the order and the patients demographics are in correlation (1 point)
- Documentation
 - Confirmation
 - Asset
 - Compliance

11. The equipment that is used to alleviate pain for the patient's sacral wound? (1 point)

- Alternating Pressure Pad (APP)
- Boho Cushion
- Low Air Loss Mattress (LAL)
- Roho Cushion

12. What is Sleep Apnea? (1 point)

- Cessation of breathing while you are sleeping.
- Excessive daytime sleepiness
- Proceeding to a deep restful phase of sleep.
- Abnormality in the skin

13. What is the meaning of DME? (1 point)

- Dependable Medical Equation
- Durable Medical Equipment
- Durable Medical Expertise

14. The main role of the _____ is to process the getting an agreement from the payer to cover specific services before the service is performed.

(1 point)

- Authorization Department
- CPAP Department
- Orders Department
- Intake Department

15. They maximize comfort for patients who use them for extended periods of time, and their customizable features make it easy to adjust its specific parts according to the patients needs. (1 point)

- Walker
- Hospital Bed
- Commode
- Wheel Chair

16. People who commonly require _____ are those who have experienced a stroke, joint replacement or perhaps have a disease such as Parkinson's disease or Multiple Sclerosis, any condition that limits their flexibility or ambulation.

- Shower Seats
- Commode
- Bathroom Safety

17. An individual who has _____ is likely required to have a shower or bath seat.

- Tracheostomy
- Post-Polio Syndrome
- Tuberculosis

18. It is one of the most private things we do during the day. Being independent when we do this activity is important to clients and customers.

- Toileting
- Eating
- Sleeping

19. This type of commode provides for the needs of non-ambulatory users by permitting lateral or sliding transfers to and from a bed, chair or wheelchair.

- Basic bedside commode with fixed arms
- Bedside commode with drop-arm or removable arm
- Over-the-toilet commode

20. This type of commode meets the needs of people who can stand but cannot walk well (or ambulate) the distance required to get to the bathroom.

- Basic bedside commode with fixed arms
- Bedside commode with drop-arm or removable arm
- Over-the-toilet commode

21. This may be experienced by otherwise healthy elderly individuals or by those who have suffered head or spinal cord injuries or possibly a stroke.

- Incontinence
- Ostomy
- Stroke

22. The head section and foot section of this type of hospital bed are raised and lowered using separate hand cranks. A third crank raises and lowers the height of the bed.

- Semi - Electric Hospital Bed
- Manual Hospital Bed
- Full Electric Hospital Bed

23. This type of hospital beds have buttons that separately operate the head spring and the foot spring section and a hand crank system that changes the bed height.

- Semi - Electric Hospital bed
- Manual Hospital bed
- Full Electric Hospital bed

24. This type of hospital bed have buttons to operate the head spring section, the foot spring section and the bed height. A manual crank is provided for emergency back-up operation in the event of power failure or the failure of one of the motors.

- Semi - Electric Hospital bed
- Manual Hospital bed
- Full Electric Hospital bed

25. This medical equipment operates by continuously pulling air into to the bed and pushing it into the cells, in addition this mattress has tiny holes which allow the air to escape out.

- Gel Overlay Mattress
- Low Air Loss Mattress
- Alternating Pressure Pad

26 - 30. Please explain the following in your own words.

What is Medicare?

Medicare is a national health insurance in the U.S., which is funded by the government utilizing the taxes of people. In addition, this does not vary per state; or is uniform across state. There are 3 qualifications/requirements to be met to be eligible: 65 years old, PWD, and person with end stage renal disease.

What is Medicaid?

Medicaid basically covers what Medicare cannot in the certain year. This varies per state and one must be low income and with limited resources to qualify.

What is Deductible?

Deductible is the amount given by the insurance company to the patient the whelne needs to satisfy or pay first before the insurance starts paying for the medical expenses.

What is the Difference between Co-insurance and Copay?

while these two will only exist once a deductible is paid, we must note their differences. co-insurance is the percentage rate that the patient needs to pay in behalf of their insurance company. On the other hand, Co-pay is the fixed rate or flat fee that patients pay in behalf of their insurance company.
