Dear STL Jonald Uy Minguan and the rest of the Management Team,

I regret to inform you that I will be resigning from my position effective today 12/29/2022. I have been facing a lot of health issues lately which requires me to take a rest for a few months as per advised from my doctor and I am due to see a cardiologist early next year. I can't afford to risk the stats of the team no longer and I decided that this is the best decision for both parties.

I learned a lot from you as my supervisor and our team which nurtured me not just in our workplace but also how to value a family. I will miss all the things and laughter we shared as a team for almost two years. Please advise the next steps I have to do for the clearance processing.

More power to you and the rest of the team.

Sincerely,
